MODERN TIMES - responding to chaos

Drawings and films selected by Lutz Becker

3 April - 13 June 2010

DE LA WARR PAVILION

Bexhill on Sea

This exhibition comprises drawings, prints and experimental films, and explores the recurring tension between figuration and abstraction throughout the 20th century and the ways by which ideas and concepts evolve. It encompasses movements such as Constructivism, Futurism and Vorticism, Abstract Expressionism and Minimalism, and comprises works by key artists, as well as works of artists who have been sidelined in the mainstream of art history.
